DTF STATION

Prestige L2

DTF Printer

A step beyond desktop, delivering **increased speed and wider output** in a compact footprint.

Scaling Starts Here

45 cm
Print width

6.5 m²/h
Print speed

2
Printheads

Dual Epson i3200 printheads.

High-speed, high-quality output at 4.6 to 6.5 m²/h (50 to 70 sq. ft. per hour).

45 cm (17.72") print width.

Wider output than a desktop machine on roll media, without committing to a full 24" system.

White ink that stays ready.

WIMS prevents clogging and keeps white consistent from the first sheet of a run to the last.

Head strike and tension sensors.

Sensors across printer, shaker and take-up reel protect the heads and keep material feeding smoothly.

Automatic film take-up.

Film takes up during printing and active and passive auto-cleaning cut downtime between jobs.

Support and warranty

- **Lifetime** DTF Station tech support
- **1-year limited warranty** on non-consumable parts
- **6-month warranty** on up to 2 printheads, with onsite training and installation
- **neoStampa RIP** and DTF Station Pilot driver included

See it run. Contact your DTF Station dealer or visit **dtfstationglobal.com**.

DTF STATION

Beyond Desktop, Short of a 24-Inch.

The step between desktop and 24 inch.

The L2 is built for businesses ready to move past a desktop machine without committing to a full 24" system. It carries performance features inspired by the XL2 in a smaller footprint, which makes it a practical upgrade path rather than a jump.

Automation borrowed from the bigger machines.

A fully automated printing system, head strike sensors across the printer, shaker and take-up reel, and automatic film take-up during printing all come down from the larger Prestige line.

Sized for a mid-tier floor.

At 46" wide and 300 lb on standard 110V, the L2 suits a mid-sized production environment without a dedicated electrical install.

Install & Facility

Dimensions (W x D x H)	117 x 76 x 142 cm (46" x 30" x 56")
Machine Weight	136 kg (300 lb)
Power Supply	110 V
Rated Current	9 A
Power Consumption	1,000 W
